CAREER OBJECTIVE

Entry-level professional with hands-on experience in developing maintainable and scalable software solutions. Skilled in debugging and building modular applications with a strong focus on code quality and best practices. Enthusiastic about contributing effectively to a dynamic IT organization while continuously enhancing technical expertise.

SKILLS

- **Programming:** JavaScript, C#, Python (Basic)
- **Frontend:** React.js, HTML, CSS, Bootstrap
- **Backend:** Node.js, Express.js, ASP.NET Core, ASP.NET MVC
- **Databases:** PostgreSQL, SQL Server
- **Concepts:** REST APIs, MVC Architecture, Authentication & Authorization, Exception Handling
- **Tools:** Git, GitHub, Visual Studio, VS Code, Figma

PROJECTS

Training & Placement Portal (React Version)

React.js, Node.js, Express.js, PostgreSQL, JWT Authentication, Tailwind CSS, REST APIs

- Developed a full-stack Training & Placement Portal to streamline campus recruitment workflows, including student profiles, company postings, drive applications, and placement tracking.
- Built a responsive React.js frontend with reusable components, protected routes, and role-based dashboards for Students and TPO/Admin.
- Designed RESTful APIs using Node.js and Express.js with PostgreSQL integration for managing authentication, placement drives, applications, and student records.
- Implemented JWT-based authentication, form validation, and dynamic UI interactions to enhance security, usability, and real-time user experience.

Express Car (Car Rental Application)

Flutter, Dart, Firebase

- Developed a cross-platform car rental mobile application using Flutter and Dart with a responsive, modular UI.
- Implemented Firebase and Google Authentication for secure user registration, login, and session management.
- Integrated Firebase/Realtime Database to manage car listings, user data, and bookings with real-time updates.
- Designed complete booking workflow including car selection, availability checks, booking confirmation, and booking history

GitHub User Finder

[Live Demo](#)

HTML, CSS, JavaScript, GitHub REST API

- Built a GitHub User Finder using HTML, CSS, JavaScript, and the GitHub REST API to display user profiles and repositories.
- Implemented asynchronous API calls and dynamic DOM manipulation for search results.
- Added error handling for invalid usernames and unavailable profiles.
- Designed a responsive UI with interactive profile and repository sections.

EDUCATION

B.Tech in Computer Engineering

RK University

2023 – Present

CGPA: 7.38

12th (GSEB)

Shree Shubham School

2022 – 2023

PR: 66.67

10th (GSEB)

Shree Palav Vidhya Dham

2020 – 2021

PR: 98.06

PARTICIPATION (HACKATHON)

- **CodeMind AI Hackathon** – RK University July 2026
- **CONVERSANTECH** – Darshan University July 2025
- **SOCIOHACK** – IIT Gandhinagar Feb 2025
- **TECHNOPLANET / IDEATHON** – RK University Feb 2024

CERTIFICATION

- The Complete JavaScript Developer: Learn Modern JavaScript (Udemy) Jan 2026
- The Joy of Computing Using Python – NPTEL (Elite) Jan–Apr 2025

ADDITIONAL INFORMATION

- **Languages :** English, Hindi, Gujarati (Native)
- **Areas of Interest :** Web Development, Quizzing, Physical Exercise, Gaming, Reading
- **Soft Skills :** Problem Solving, Teamwork, Adaptability, Time Management
